BROKE ALL RECORDS.

Mineral Products of the United States
in Year of 1907.

Washington, D. C., Nov. 7.—The value of the mineral products of the United States in 1907 reached the enormous total of \$2,065,280,190, surpassing the value of the same products in 1906 by \$163,282,162, or 8.6 per cent., that of 1905 by \$7,333 per cent., and of 1904 by 58.81 per cent. Both metallic and non-metallic products contributed to the gain.

Rank of the Minerals.

Two minerals—coal and iron—are credited with approximately 55 per cent. of the total for the country, and three more—copper, clay products, and petroleum—furnish about 22 per cent., the five contributing about 77 per cent. of the whole. The minerals whose output in 1907 was valued at more than \$5,000,000 are listed in the following table:

Value of More Important Minerals Produced in the United States in 1907.	
Coal	\$614,708,808
Iron	629,938,000
Copper	173,709,300
Clay products	158,942,569
Petroleum	120,106,749
Gold	90,435,700
Stone	71,106,803
Cement	55,993,851
Lead	52,869,835
Natural gas	38,707,676
Silver	37,299,700
Zinc	26,401,910
Sand and gravel, etc.	13,242,002
Lime	12,640,612
Phosphate rock	10,653,558
Salt	7,439,551
Mineral waters	7,331,503
Slates	6,490,900
Zinc white	6,010,220
Sulphur	5,142,830

Products whose output exceeded \$1,000,000 in value were gypsum, valued at \$4,942,244; aluminum, \$4,926,048; mica, \$2,979,151; asphalt, \$2,824,480; glass sand, \$1,350,607; sand-lime brick, \$1,223,700; and borax (crude), \$1,121,520.

The total value of the metallic products in 1907 was \$903,024,005; of the non-metallic products, \$1,166,161,911; \$100,000, estimated as the value of such mineral products as molybdenum, nickel, titanium, and, reported in detail, brings the total to the amount stated.

Rank of the States.

Pennsylvania, reporting mineral products valued at \$467,783,345, has no close rival for first place among the states. For this, which is second, reports products valued at \$207,657,339, while the mineral products of Illinois, the state ranking third, were valued in 1907 at \$146,768,494. Fourth on the list is West Virginia, with mineral products, including coal, natural gas, and petroleum, valued at \$92,487,900. Colorado is fifth, with products valued at \$71,106,803, gold and coal furnishing more than 50 per cent. of the value. Michigan is sixth, with products valued at \$70,073,920, more than 60 per cent. of the value being in copper. New York, the seventh state, reports products valued at \$68,722,815, about 48 per cent. of which is for pig iron. Montana is eighth on the list, with products valued at \$60,663,511, about 74 per cent. being copper. The ninth is Arizona, with products valued at \$56,753,659, more than 90 per cent. of which is for copper. California, with a long list of mineral products, among which gold and petroleum were produced to the greatest value, is the tenth state, the mineral output for the year being valued at \$56,079,435.

Missouri, with products valued at \$53,129,431, and Alabama, whose products were valued at \$52,138,740, more than 60 per cent. being for coal and iron, hold, respectively, eleventh and twelfth places. Products valued at more than \$30,000,000 were reported also from Indiana (\$39,141,217), Utah (\$38,099,736), and New Jersey (\$3,800,229). Between \$20,000,000 and \$30,000,000 worth of products were reported from Kansas (\$28,677,044), Oklahoma (\$26,908,968), Tennessee (\$26,525,094), Nevada (\$22,083,700), Idaho (\$21,200,612), and Alaska (\$20,200,532). States reporting between \$10,000,000 and \$20,000,000 worth of products are Texas (\$19,800,548), Virginia (\$19,313,182), Maryland (\$19,356,250), Kentucky (\$19,294,341), Iowa (\$17,623,094), Wisconsin (\$17,832,369), Louisiana (\$17,671,719), and Wyoming (\$10,671,574). All of the other states and territories reported mineral products valued at less than \$10,000,000.

Source of Statistics.

The figures presented in the foregoing paragraphs are taken from a summary of the mineral production of the United States in 1907, compiled by W. T. Thom, of the United States Geological Survey, and published by the survey as an advance chapter from "Mineral Resources of the United States, calendar year 1907." This chapter is now ready for distribution and may be obtained by applying to the director of the survey at Washington, D. C.

Mind Your Business!

If you don't nobody will. It is your business to keep your mind on the trouble you can and will keep out of liver and bowel trouble if you take Dr. King's New Life Pills. They keep biliousness, malaria and jaundice out of your system. 25c at Red Cross Pharmacy, Rickert & Wells' drug store.

DOUBLES THE NUMBER OF EGGS

To be successful with poultry requires a great deal more careful attention than many are apt to think. The house should be large and warm. The fowls should have plenty of exercise, but, more than that, the fowls should be given as food what their nature demands and what, if allowed free range, they could procure for themselves. "Page's Perfected Poultry Food" contains these ingredients in a carefully compounded ration. A. A. Olmsted of South Newbury, Vt., has the following to say in regard to this food: "We have been for some time using your 'Perfected Poultry Food' with such good results that we thought it a proper thing to tell you. It keeps our hens well and in good laying condition and, we think, doubles the number of eggs. Being in a good condition, like so not trouble." If you want to know more about this food and the best ways of using it, write to C. S. Page, Hyde Park, Vt., for his booklet, "Profitable Poultry." It will be sent free, postpaid, to anyone mentioning this paper.

ABOUT THE STATE

A bell has been presented to the Congregational church at Hyde Park by Mr. and Mrs. H. M. McFarland and has been placed in the belfry of the church.

Mrs. S. F. Collins of Taftsville, who has been shut in for six years and nine months and a large part of the time in bed, passed her nineteenth birthday anniversary October 27.

George S. Payne, who for the past year has been serving as overseer of spinning at the Queen City Cotton Co.'s mill in Burlington, has been given the position of superintendent of the mill.

Returns now show that the town of Sumner went Democratic by a vote of 4 to 3, instead of going Republican, as at first reported. Four years ago that town went Republican by a vote of 17 to 1.

Antonio Zingali of Rutland, a section hand on the Rutland railroad was seriously injured while returning from Shaftsbury to Manchester, by falling in front of the hand car on which he was riding. It is thought no bones were broken but the man's back was severely injured and he will be unable to work for some time.

Supt. D. L. Morgan of the house of correction, Rutland, and J. H. Geldart, superintendent of religious work, are trying to arrange for a series of lectures to be given at the institution this winter. Several speakers have already been secured, and if enough more can be found efforts will be made to hold one lecture each week.

The Rev. Mr. Gibbs Brinslin, formerly pastor of the Baptist church in Rutland, is now of Gloucester, Mass. has been elected president of the Northern Baptist Education society. This organization for more than one hundred years has been aiding young men to prepare for the ministry. The past year over fifty were helped in seminary college and academy.

After two days of hard work by a

safe expert from Boston, the doors of the Rutland postoffice are still closed, and much inconvenience is being caused in the department of postal money orders. One book has been locked up for this, which is second, reports products valued at \$207,657,339, while the mineral products of Illinois, the state ranking third, were valued in 1907 at \$146,768,494. Fourth on the list is West Virginia, with mineral products, including coal, natural gas, and petroleum, valued at \$92,487,900. GLORIES OF VERMONT.

Lecturer at Faneuil Hall Tells of the
Beauties of The Green Mountain State.

Under the auspices of the Vermont association of Boston, Rev. J. J. Elvira of Vermont, talked last evening in Faneuil hall before a large audience upon the glories of the Green Mountain state, dwelling especially upon the coming celebration of the three hundredth anniversary of the discovery of Lake Champlain by Samuel de Champlain, to be held all along the lake, particularly in Burlington, during the week beginning July 4, next year says the Boston Transcript. Mr. Lewis, who was introduced by the president of the association, I. R. Clark, said that next year will be Vermont's psychological year. New York, he said, has already appropriated \$50,000, and it is believed will soon appropriate \$100,000 more to celebrate Champlain's memorable discovery, and he urged that every Vermont citizen exert himself to the utmost to see that Vermont shall make a generous appropriation for the purpose. He hoped to see something done to offset the "too prevalent notion that Lake Champlain belongs to New York."

Mr. Lewis said that it is to be old home week in every city, town and village in Vermont, and that every latch-string will be out during the week of July 4, next. The French Catholics are to take a prominent part in the celebration, July 4 being set apart for them. One of the main observances is to be in memory of the famous battle between the Inroquois and the Huron Indians, in which Champlain fired the first musket shot heard up to that time in the northern part of North America. It is proposed to have exercises on a raft on the lake.

Suggestions for the advancement of Vermont were made, one being the building of better roads. Mr. Lewis quoted statistics to show that New Hampshire gained \$5,000,000 last year largely from summer visitors, and he added that there is no reason why Vermont should not do as well if her people would just awake to the advantages they can offer in the Green Mountains and along the shores of Lake Champlain. The lecture was illustrated with many stereoscopic views.

Two sizes—50 cents and \$1.00.

ALLEGED GRAFT IN QUEBEC.

Twenty-eight Officials Suspended After

Investigation.

Quebec, Nov. 9.—As a result of disclosures made before Judge Cassels at Quebec Friday in his investigation of alleged graft in Canada's marine department, 28 minor officials and employees have been suspended at Quebec. Testimony showed that contractors had to pay a bonus of 5 per cent. on nearly everything that was furnished the government, and that the contractors got even by charging the government extortionate prices.

Special Notice.

All parties having furniture, wagons,

slighs, etc., stored at warehouse of For-

syth & Ingram are requested to make

immediate payment to November 1st,

'08. All such bills not paid before Nov.

10, '08, goods will have to be sold after

said date.

Barre, Vt., Nov. 3, '08.
